AGMA'S STORY

Hello, we are Malcolm and Maxine Franklin the creators of STABLEMATE by AGMA. We are a family owned British company, who hold a Royal Warrant by Appointment to her Majesty the Queen.

We are a company that strives to satisfy the needs of our customers and our passion is to help keep the environments of their horses clean and disease free.

Our passion for customer service and continuous product improvement has enabled us to grow year on year! As of the 26th September 2018 we hit our 50 year anniversary, which we believe to be a huge achievement and shows just how much of a journey our company has been on.

AGMA'S History

Our history shows the different achievements we've accomplished over the years, such as our horse Trip to Paris, becoming the AGMA workforce mascot and everyone's excitement when he won the Gold Cup at Ascot in 2015. This led to the development and subsequent creation of STABLEMATE by AGMA for the Equine industry.

STABLECLEANSE

A pine based **spray cleaner** which is ideal for most hard surfaces in your stable or horsebox. Just spray on to those stubborn stains and leave for a short period of time.
